

Santa Fly-In—December 8th - PCAM's Gift to Our Community Watch Santa Claus land at the Museum in a helicopter!

© John Nelson

Thanks to the generous sponsorship by Active 20-30 of Santa Rosa, Santa and Mrs. Claus will be flying in on a helicopter provided by Helico Sonoma around 11:00 AM on December 8th. This free event is open to the public, and will feature all kinds of great things and holiday cheer:

- Free bags of goodies for the kids
- A chance for kids to whisper their holiday wishes into Santa's ear
- An air slide and jumpee house
- Food like that at our Hot Dog Thursdays will be available, plus some special additions.
- Open-cockpit aircraft will be open so you and the kids can look inside.

© John Nelson

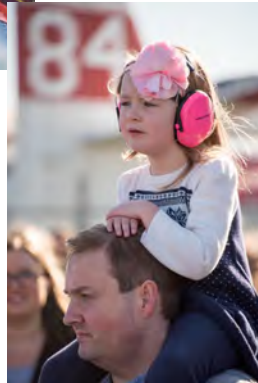

© John Nelson

The Gift Shop will be open, with wonderful toys and other gift ideas.

No Charge for Admission

This is PCAM's holiday gift to the community, and we will not be charging admission.

HAPPY HOLIDAYS & THANK YOU, VOLUNTEERS SPONSORS AND DONORS! WE COULDN'T DO IT WITHOUT YOU!

The PCAM Mission

“To Educate and Inspire both young and old about our aviation heritage and aerospace technology, to Preserve historic aircraft and artifacts, and to Honor veterans.”

Continued on next page

Continued from previous page

When
Our gates will open at 10:00 a.m. Santa and Mrs. Claus will arrive around 11:00. Their actual arrival time may vary, depending on weather, helicopter availability, and the many scheduling issues that arise around working with reindeer and elves. They will be leaving around 2:00 or whenever there are no more kids to talk to, so come early!

This is an outdoor event, so watch the weather reports and dress appropriately.

Sponsored By
Active 20-30 of Santa Rosa, #50 and Helico Sonoma.

For Your Security
Backpacks, ice chests, dogs, and other animals are not allowed. Only guide dogs and certified companion animals are allowed.

Please join us for this special community event for young and young at heart and share your Christmas Wish with Santa. 🌟

Presidents Message

by Dave Ford

It seems like we just adjourned the January Board meeting, but here we are getting ready to close out the year. Ballots have gone out to the membership for the election of two new Directors and results will be announced at the December 19th General Member meeting. A third Director will be chosen and voted on by the new incoming Board and once the Board is seated, they will then choose your new officers for 2019.

It has been an honor and a privilege to serve as your President for 2018 and I am very grateful for the support and guidance that the Board has given me, as I am a relative newcomer compared to those Board members that have been involved with PCAM since the beginning. However, the Board is a very small cog in the wheel that makes PCAM move along and put on the events and programs that make PCAM what it is. It is the volunteers that continue to turn out and implement the mission statement. They work hard to **Educate** and **Inspire**, they work hard to **Preserve** and **Honor**. Without our volunteers, the museum would not exist. Thank you to all the volunteers and chair persons who have stepped up and given their time to carry out the mission statement. 2018 has been a challenging year and a successful year...**THANK YOU VOLUNTEERS!!!**

Which brings me to the next point. 2018 is the end of a 29 year run for the Pacific Coast Air Museum and 2019 will be the museum's 30th anniversary year. This year has resulted in a signed lease for our new location and the acquisition of three buildings, which includes the historical Butler hangar. We have also engaged the Architectural firm of Hedgpeth Architects to provide plans for a new building to replace the old Dragonfly Flying school structure. The long anticipated move is under way and the aircraft have been repositioned to the new site and TSA has approved our security plan.

Having said all of that, 2019 will be a very challenging year for your new Board and its officers. Many of you have seen me sign off on emails with, "onward and upward" and have heard me say many times that the "glass is half full, not half empty". I challenge each and every one of you to step up and support the museum as you have been doing. Support your new Officers and Directors as they tackle the challenges of our 30th anniversary year. With your support, 2019 will be a successful and great year.

"ONWARD AND UPWARD!" ✨

NEW MEMBERS

by Dave Ford

On behalf of the Pacific Coast Air museum, I want to welcome all of the following new members that joined the museum in October. We look forward to having you join us at the monthly meetings, volunteering and participating with us in our events. Please let me know if I've overlooked anyone.

Andy & Susan Esquivel
Valerie McQuat
Sylvia Moore
Steven Wischemann
Paul Zygielbaum ✨

Upcoming Election

Please remember to return your completed ballot to PCAM by **December 19, 2018**.

Two new board members will be announced during the General Member Meeting. ✨

FREE TO A GOOD HOME OR OFFICE

We're cleaning up the Dragonfly building and have various desks and cabinets, plus a wood stove, fridge and typewriter (what's that!) – **Free** to members. Be there on Saturday, December 15th noon to 2PM. Could be good items for home office or non-profits. ✨

**HAPPY HOLIDAYS &
THANK YOU, VOLUNTEERS!
WE COULDN'T DO IT WITHOUT YOU!**

PCAM Education Team - Outlook Bright for 2019

by Charley Taylor

As PCAM completes 2018, the Education Team looks forward to expanding the museum's role in education. We are on track to offer a week-long aviation program at *Excel for Kids* at Sonoma State University in early June, 2019. Classes will utilize STEM concepts to teach enrolled students about the principles of flight, aerodynamics, aviation physiology, aircraft design and construction along with building and flying drones. Highlights will also include a trip to PCAM to see and hear first-hand from docents about what flying our collection military aircraft is all about.

On Friday, February 15th, PCAM will join the Sonoma-Marín County Fair Grounds Director to commemorate the Wiseman-Cooke anniversary of the world's first airmail flight which took place from Petaluma to Santa Rosa in February, 1911. Those airmail letters and a copy of the Press Democrat took three days to complete that historic flight. Students will use STEM in the design, construction and flight testing various models of paper airplanes after learning about the elements that make flight possible.

In April, our Education Program will also inaugurate the first *Teachers Open House Saturday* that will be scheduled on each **Open Cockpit** weekend through October. Educators will be invited to tour the museum and learn how they can incorporate PCAM assets into their STEM and history curriculum. The goal is to increase opportunities for in classroom sessions including *Principles of Flight* and *Aviation History*. In addition teachers will be able to schedule PCAM visits for their student group visits to the view PCAM's historical aircraft with tours presented by our dedicated docents.

© Charley Taylor

PCAM's 2019 Merit Badge Class schedule on Saturdays include: January 26st; May 11th; and October 14th. Education Instructor Emeritus Art Hayssen has earned the reputation for presenting and coordinating the exciting day-long course completing all the requirements to earn the Aviation Merit Badge. Scouts regularly come from every part of California.

© Charley Taylor

Continued on next page

Continued from previous page

Classroom sessions include discovering and identifying the varied types of “flying machines” and power plants, practical use of aircraft charts to compute aircraft performance such as takeoff and landing distances, as well as insights into the many opportunities in aviation careers and education. Popular highpoints include a tour of a working FAA Control Tower, and climbing into the cockpit of one of several historical military aircraft crewed by PCAM’s men and women volunteers who flew and maintained PCAM’s collection of planes. The ultimate highlights include instructed Virtual Reality (VR) flights in PCAM’s simulator which is housed in the cockpit on an actual jet aircraft; and finally, flights above Sonoma County with some of our PCAM member pilots in their own aircraft.

© Charley Taylor

In June, Sonoma Jet Center and PCAM join forces to again host 30 attendees of the Mike Hauser Academy. The Academy is organized by the Santa Rosa Metro Chamber which convenes recent Eighth Grader students headed for several local High Schools. The Chamber coordinates businesses, non-profit organizations, and teachers to empower our future workforce to become leaders in science, technology, engineering and mathematics. The first day of each two day session involves tours and presentations by Sonoma Jet Center’s owner and staff explaining their jobs and experiences in aviation. On day two, PCAM includes classroom presentations on aspects of aviation principles, using graphs and charts to calculate weight and balance and other items critical to safe flight; career and educational opportunities in aviation, hands-on aircraft construction techniques; meeting pilots, and learning about their early aviation experiences. Finally tours of PCAM’s historic aircraft, with knowledgeable docents, and opportunities to fly in the exciting VR simulator completes day two.

PCAM’s Aviation Explorer Post 707 continues their affiliation with the Flight Wing. Explorers have been provided excellent opportunities to gain hands-on experience learning by working on actual aircraft restoration projects while being mentored by Flight Wing members with lifetime experiences building, repairing, servicing and flying aircraft. Post 707 members will also have new opportunities to learn aviation history from PCAM members who have lived through many of those historical events.

If you enjoy teaching and relaying your experiences and knowledge to the youth of Sonoma County, you are encouraged to contact Charley Taylor, Education Committee Head to learn when, where and how you can participate in this vital PCAM mission. ✨

School visit after a year of Aviation Club

© Charley Taylor

WITH OUR VOLUNTEERS, ANYTHING IS POSSIBLE!

From the Flight Wing

Season's Greetings to All:

I wasn't going to let the year close out without a brief review, saying thank you to all of you and a glimpse into next year. It seems that yet another year has raced by and with it many great experiences and even some lost opportunities. All of these are worthy of consideration as we contemplate our course for next year.

Between a late start, smoke and goofy weather we did manage to get some flying in. Most of that was in the C-1A which managed an appearance at our WOWC Air Show. Thanks to her able crew who rose to the occasion and kept the aircraft healthy throughout the year. We didn't log much flight time with the rest of the fleet thanks to a variety of setbacks. But we are well prepared for 2019 and expect to do better. There are opportunities for pilots and anyone who would like to become involved in supporting these aircraft.

Our Windsor High STEM students are back again this year with a healthy crop of eager young participants. If they all show up on the same night our head count is now up to ten. Thanks to Paul Doto and Tony Bassignani for showing up each week to help manage the herd. As the number of participants continues to grow we are constantly looking for other individuals who can help out in the teaching arena to keep these young minds sufficiently challenged. They are anxious to be inspired and educated which is right up our alley.

Our summertime monthly Flight Wing meetings were successful considering the faithful members who attended them regularly. On several occasions we combined movie night with the Flight Wing dinner which seemed popular. With the help of Julie (Duchess) Barnes who frequently loaned us her significant culinary skills our monthly menu was the main attraction. The food combined with Dana Hunt's always entertaining video clips kept everyone suitably entertained and educated. We will do a better job next year of announcing upcoming meetings.

I am working on a proposal to the Flight Wing regarding the restoration of our Rearwin Sportster. With only eight total on the FAA register and only one of those currently flyable, information is slow in coming. There is a reliability issue regarding the radial engines normally found on these aircraft stemming from a shortage of engine parts and a steadily shrinking installed base of knowledge regarding their care and feeding. If our intent remains to restore this aircraft to flyable condition, then I am proposing to sell our current collection of original engine parts to help fund the purchase of a newly manufactured Rotec R2800 engine. They are comparable in size, weight and horsepower. The Rotec engine would provide us with many hours of reliable operation. The manufacturer will provide assistance in the design and manufacture of a mount. Our challenge will be the successful integration of this engine into the air frame, a challenge that we are well equipped to address.

Lastly, thanks to each and every one of you for supporting the Flight Wing. Ours is an honorable and worthy passion and we have an admirable track record. Our future looks bright and with your support and participation next year will be even greater. ✨

Happy Holidays,

Lynn Hunt

**THANK YOU, VOLUNTEERS!
WE COULDN'T DO IT WITHOUT YOU!**

Volunteers Needed. Not Again!!!! Yes, STILL!!

by Andy Werback

If you have been reading the Straight Scoop, our *excellent* newsletter, we frequently have a section saying "VOLUNTEERS NEEDED". If you're already volunteering, Thank You!! If you or someone you know would like to volunteer and has time, please have them contact us.

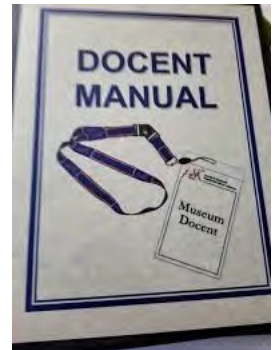

Besides a Newsletter Editor, help with Hot Dog Thursdays, Office help, Event support, Gift Shop, we really need Docents!

DOCENT

- A Person who acts as a Guide, typically on a voluntary basis, at a Museum, Art Gallery, or Zoo.
- Information Giver
- A Member of the Teaching Staff, just below Professorial Rank (might not apply here...)

If you've ever been to a museum and had a guided tour, you probably appreciate how much that improved your visit and experience. At PCAM, it's hard to convey the history of the aircraft and artifacts with a few signs. Plus, with the new location in and around the Butler Hangar, we need to have a volunteer present whenever visitors are present. This is something that the Museum really needs your help to accomplish.

If there is enough interest, we will have a docent training class. (When I volunteered for the SS Jeremiah O'Brien, WWII Liberty Ship at Pier 45, in San Francisco, this was a very informative and valuable experience).

In the meantime, the Gift Shop is open 5 days a week, 10AM to 4PM. They have a volunteer signup list and can let you know what times are available, and sign you up—call 707 575 7900 Ext. 3. 🌟

Please refer to page 8 for specific volunteer positions.

**HAPPY HOLIDAYS & THANK YOU, VOLUNTEERS!
WE COULDN'T DO IT WITHOUT YOU!**

Volunteer Hours Reminder

by Jim Mattison

Once again another year is coming to a close.

At the January meeting we will acknowledge the many hours our volunteers have contributed. Please submit all volunteer hours by the first week in January.

Please submit your hours to Jim Mattison via email jmatti@sonic.net, via the logbooks or via the online reporting system at <https://form.jotform.com/PCAM/pcam-volunteer-time-sheet>.

I would like to thank all the new volunteers that have come aboard this year. We appreciate your commitment to the success of Pacific Coast Air Museum.

2019 will be an exciting year for the museum and will bring forth many opportunities for volunteer involvement. We encourage members both old and new to contribute their talents to the growth of the museum.

Need suggestions for helping out? Take a look below or at the signup for ideas: <https://goo.gl/TkBCy6> ★

VOLUNTEERS NEEDED

Your Museum really needs your help! We know you have an interest in the on-going success of the Museum so please come on out and join us for some fun. We have opportunities for everyone with every skill level. We are looking for volunteers in the following areas:

Administrative
Newsletter Editor
Data Entry
Docents for Museum Tours and Parties
Events (of which there are many!)
Hot Dog Thursday
Wings Over Wine Country Air Show
Carpentry Skills
Gift Shop
Yard Maintenance
Help with our move
And, many more! ★

Friday Field Trip/Tour Coordinator

We are seeking a person to take the lead for Friday field-trips and tours. This will include communicating with the school group or tour leader. The coordinator will greet the group upon arrival and conduct a safety briefing prior to turning them over to the docents. At the conclusion of the field trip/tour the coordinator should thank the group for visiting and encourage their return. ★

**HAPPY HOLIDAYS &
THANK YOU TO PCAM'S FABULOUS VOLUNTEERS!
WE COULDN'T DO IT WITHOUT YOU!**

Pacific Coast Air Museum Member Meeting & Holiday Party December 19, 2018

Time and Location:

Wednesday, December 19, 2018, 7:00 p.m.
Columbia Distributing, 3200 N. Laughlin Road
Cost: Free for Members and Guests.

Awards Ceremony, and Holiday Party

Please join us to celebrate another great year, the holiday season, and a look ahead to the great things yet to come.

The party will take the place of our regular monthly member meeting. It's at the usual time and place.

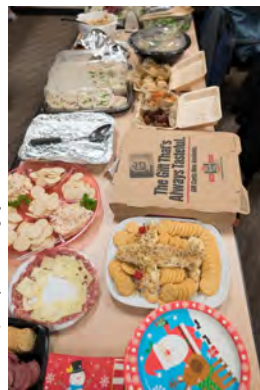

Awards Ceremony

Several special awards will be presented including Volunteer of the Year and the annual Presidential Award.

Potluck Guidelines

- Bring Your Favorite Dish, to serve ten
- Bring whatever dish you like: main courses, appetizers, salads, sides, or the ever-popular desserts. Just make sure you bring enough to serve ten people.

Please bring a serving utensil for your dish: spoon, fork, pie server, or other as appropriate. Beverages, paper goods and cutlery will be provided.

© John Nelson

As usual, we will have full access to the kitchen so you can refrigerate or heat your dishes in the microwave. However, if possible please bring hot dishes already hot as there is not a lot of room in the oven. There will also be dish soap and dish towels if you want to wash up before leaving. ★

© John Nelson

© John Nelson

No speaker is scheduled for the December Member Meeting. Instead, the Holiday Potluck Party is scheduled to thank everyone for their continued dedication to and support of PCAM and our mission.

Teaser for the January 16th General Meeting
Scott Drew who will be talking about helicopter maintenance and operations ★

Jungle Fighter Pilots A Recap of PCAM's November Presentation by David Rogers, Capt. USAF Ret

A special thank you to Capt. Rogers for sharing his account of what life was like in a combat zone as a Forward Air Controller (FAC) flying the Cessna O-1 supporting the Korean Tiger Division, Viet Nam. Capt. Rogers also shared a pictorial representation of the Vietnamese people, how they lived and gave us a special look at the Viet Cong, up front and personal.

Capt. David Rogers Biography:

David Rogers was born in Tillamook Oregon in 1939 and graduated with a BS in General Engineering, University of Portland, 1962. He then worked on the Boeing Minuteman Missile 47 R&D section, 1962-1963. Upon graduation from Pilot Training in Class 64D, Williams AFB Chandler AZ, he flew the B-52H from the Grand Forks AFB North Dakota, 1964-1969. During the Vietnam War, David was Air Liaison Officer with a staff of 4 pilots and 4 enlisted personnel assigned to the Kore-

an 1st Regiment, Tiger Division, Viet Nam, 1969-1970. Returning Stateside, David graduated with a BS in Mechanical Engineering, Oregon State University, 1973. After becoming a Registered Mechanical Engineer, David in 1976 started Rogers & Associates, an Engineering Consulting Firm specializing in Hydronic and Thermodynamic systems optimization. This firm was sold to his partners in 2006. David then assisted Seattle-based Flow Control Industries in developing an energy company, Flow Energy, from 2006-2011. He is now retired. ★

Christmas Shopping at PCAM Gift Shop

Get a jump start on your Christmas shopping! Remember, as a PCAM member, you always receive a 10% membership discount. Be sure to take a look at all the fabulous gift items for those special people in your life. And, we have great stocking stuffers, too!

We have adorable children's flight jackets that are the perfect give for that future pilot in your life and will go fast so give the Gift Shop a call to reserve yours now – 575-7900, option 3.

© John Nelson

We stock our shelves full of great aviation-themed gifts calculated to please anyone with a love of airplanes -- from armchair aviators to seasoned scud-runners. And you might just find something here for yourself.

- Scale Die-cast aircraft models
- Shirts: tees, long-sleeve, polos
- Baseball and Golf-style hats
- Jackets, including kids' sizes
- Aircraft-themed toys, including flying toys
- Artwork
- Books
- DVDs
- Stickers & patches: great stocking-stuffers!
- Mugs and glasses
- And more!

© John Nelson

PCAM's Gift Shop is open Wednesday through Sunday, 10:00 to 4:00. Be sure to stop in, say hello and find that perfect gift for that special aviator. ✨
